DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on May 10, 2005 has been entered.

EXAMINER'S AMENDMENT

2. The Applicant's representative was contacted for amending claim 1 in order to make the invention more clear.
3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Cindy X. Qiu on May 25, 2005.

The application has been amended as follows:

In claim 1, following the phrase "... comprising the steps of:" - - first forming a conducting substrate; then, - - was inserted.

In claim 1, following the phrase "... semiconductor material layer ", - - on a first electrode - - was inserted.

Art Unit: 2891

In claim 1, following the phrase "... function electrode layer ", - - on one organic material - - was inserted.

Allowable Subject Matter

4. Claims 1, 3, 4, 6 – 8, 10 and 11 are now allowed.

5. The following is an examiner's statement of reasons for allowance:

Claims 1, 3, 4, 6 – 8, 10 and 11 recite, inter alia, a method of forming an opto – electronic device comprising the step of forming a low work function electrode layer on a conducting substrate by an electrodeposition method. Although, Eida, US 5,869,929; Yu, US 6,414,431 and Duggal, US 6,891,330 teach methods of forming an opto – electronic device comprising the step of forming a low work function electrode layer, they fail to teach forming the electrodes by any electroplating technique. The art of record does not disclose or anticipate the above limitation in combination with other claim elements nor would it be obvious to modify the art of record so as to form a device including the above limitation.

Conclusion

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
